

Invitation 2026

23. Int. Kaiserwinkl-alpin-ballooning

17.01. bis 24.01.2026

All alpine-loving balloon teams can register again to travel the magnificent area on the northern edge of the imposing Wilder Kaiser.

The region offers high-alpine trips with a north wind over the "Koasa", with a south wind to Bavaria, east-west directions are wonderful to fly in the Kaiserwinkl valley. The cosiness and hospitality of the region make the participants come back to us again and again.

From today's perspective, the social events and leisure activities can be offered again without restrictions in the coming year. For us, the safety of the participants comes first. If, contrary to expectations, there are restrictions, the rules of restrictions are binding for the participants. Due to the limited number of participants, we keep the family character and can enjoy carefree hours in the wonderful winter landscape.

We offer:

for 4 persons
„Griaß di sagn“ after Check-in at Kaiserwinklhalle Kössen
